

DAKOTA WIND TRANSMISSION STUDY

AGENDA

January 19, 2005 Meeting

I. INTRODUCTION

- A. Meeting Participants
- B. Background for Study Request

II. REVIEW OF ASSUMPTIONS AND METHODS

- A. Development of Wind Generation Estimates
- B. Gridview Transmission Constraint Evaluation Method
- C. Sensitivities of Hydro and Load
- D. Transmission Enhancement Technologies
- E. Interconnection Studies of Seven Sites
- F. Transfer Capability for New Wind Generation

III. DATA REQUIREMENTS FOR THE STUDIES

- A. Review of Data Received
- B. Data Still Needed

IV. REVIEW OF SCHEDULE
